PRISON GYMNASIUM ELECTRIC SERVICE

SCOPE OF WORK

The Floyd County Prison needs the existing overhead electrical service at the Prison Gymnasium removed and reinstalled.

A Mandatory Pre-Bid Meeting/Site Visit has been schedule at **10am 16 September 2015**
This meeting will take place the Prison Gymnasium located at 329 Blacks Bluff Rd. Rome Ga. 30161

Contractor will be Licensed Electrical Contractor

Contractor will provide all labor and materials.

Contractor will be responsible to gain all required permits and comply with all local laws and regulations.

Contractor will make **all necessary coordination** with Georgia Power as required

Primary Electrical Service will include:

Awarded Contractor will provide site design services to specific locations, as determined by Floyd County Prison and the Floyd County Facility Maintenance Director.

The new electrical service will eliminate an existing pole from inside the Floyd County Prison perimeter fence line. Georgia Power has pre-approved the pole to be removed entirely or the pole may be cut off below ground level. Contractor will make arrangements to have Georgia Power disconnect and reconnect. The estimated length of the existing overhead service is 300 feet. The existing line service currently crosses the 12' high perimeter fence five times. The perimeter fence is also topped with standard correctional grade razor wire. Access to the Georgia Power transformer lies outside of the perimeter fence and can be easily accessed with a bucket truck. One standard line pole will need to be removed from inside the perimeter fence once the power has been reestablished to the gym. The original electrical service was installed in 1987. Rerouting an existing 200 amp service from the preexisting Georgia Power transformer will occur along the most direct route back to the existing 200 amp service box. This 200 amp service box is mounted in a maintenance closet inside the gymnasium. The route will include the construction of a new strut platform to support the meter. The new service will proceed through code appropriate conduit underground for 45' to the edge of the gymnasium. The Service will then progress along the inside wall of the gymnasium 20 'to a pull box. The service will then progress mounted to steel roof supports for a period of 80' to the maintenance closet in order to tie in with the previous electrical service at the 200 amp service box.

Optional add on project: Bidders may submit pricing for an additional 200 amp panel for future HVAC use. A set of detailed drawings shall be provided by the awarded Contractor. A set of non-detailed photos will also be made available to enhance the detail of the overview drawings.

Coordinating Instructions:

It should be noted as a special condition that the majority of this project will be completed in the main perimeter fence of the Floyd County Prison. The Floyd County Prison is a Level II Medium Security Prison and all contracted staff fall under the guiding principle of the Georgia Department of Corrections Standard Operating Polices concerning tool control, security, and inmate interaction. The Warden and or his designee shall provide a POST certified Correctional Officer for the duration of this project as a liaison to the awarded contracting agency and the Floyd County Prison.

The awarded contractor working within the Guard Line of the Floyd County Prison shall follow all rules, regulations, and directions given from the Floyd County Prison Officers. Failure to comply will result in immediate termination of contract.

I have read and understand these coordinating instructions
